

HOW TO PLAY HOUSE SKITTLES

STEP 1 WHAT YOU NEED

To start, gather together the following:

1. 6-10 Highland Spring water bottles (any size will do, just remember never to use glass ones!)
2. a line marker (something straight like a pencil or ruler)
3. a soft, medium sized ball

STEP 2 STARTING LINE

Find a safe place to set up your game away from any obstacles. Long corridors and spacious living rooms work well! Place your line marker on the floor at one end of the room to be your starting point.

STEP 3 SETTING THE DISTANCE

Take 6 adult steps or 9 child steps from your starting line and place your first skittle on the ground.

STEP 4 SKITTLE SET UP

Depending on the amount of skittles you are using set them up as below.

STEP 5 LET'S PLAY!

Stand just behind the starting line and roll your ball towards the skittles – the aim is to knock over as many as possible! For each skittle you knock over you earn a point. After each roll put the skittles back in their starting position for the next player. Each player gets 5 turns and the winner is the one who has the most points at the end. Easy!

HINTS & TIPS

- This game is great to play outside on a flat surface too.
- You can add water to the bottles to weigh them down depending on what size ball your using. Make sure the caps are on tight to avoid spilling!
- For safety reason please remember to only ever use our plastic bottles when playing skittles and never the glass ones
