

# GOLF TENNIS

## HOW TO PLAY

### Items you need

**1. Racket and balls**

**2. Markers**

**3. 2+ People to play**

**4. Large playing area**

### Game Rules

The objective is to hit your ball as close to the markers in a few shots as possible.

**1. Set out your markers at varying distances around the playing area**

**2. Give each marker a distance score**  
(this will indicate how many shots you need to reach the target)

**3. Have a starting point for each marker and try to get to the marker in as few shots as possible. The ball must hit the marker to complete the "hole"**

**4. 1 point is won for reaching the marker in the allocated hits. 2 points for reaching it in fewer shots and a point is deducted if the player goes over the allotted shot amount.**

The player to reach the marker in the least shots is the winner. **Have fun!**
