

WILD-LIFE ACTIVITY SHEET

FI'S GAME OF BIRD BINGO

Print off a sheet for each person who wants to play the game the next time you go out on adventure outdoors.

The aim of the game is to spot as many birds as you can, and mark them off on your sheet as you go.

You could include hearing the birds too!! Listen to the different bird calls before you go at www.british-birdsongs.uk. See if you can learn to tell the difference between a Magpie and a Wood Pigeon, they are very different!!

The winner is the first person to complete a horizontal, vertical or diagonal line and shout 'Bird Bingo!'

 Crow	 Magpie	 Blackbird	 Bluetit	 Wood Pigeon
 Duck	 Swan	 Sparrow	 Starling	 Wagtail
 Thrush	 Pheasant	 Chaffinch	 Magpie	 Crow
 Bluetit	 Swan	 Wood Pigeon	 Blackbird	 Starling
 Magpie	 Crow	 Swan	 Bluetit	 Blackbird

WILD-LIFE FACT

Birds aren't the only type of animal to use different calling sounds. Fi is a fox and they use up to 28 different sounds to talk to each other, and dolphins are given a signature sound by their mother the day they are born. If you were a bird what would your song be?
